

I J A L

International Journal of Ageing and Later Life

The International Journal of Ageing and Later Life (IJAL) serves an audience interested in social and cultural aspects of ageing and later life development. As such, the journal welcomes contributions that aim at advancing the theoretical and conceptual debate on research on ageing and later life. Contributions based on empirical work are also welcome as are methodologically interested discussions of relevance to the study of ageing and later life.

Being an international journal, IJAL acknowledges the need to understand the cultural diversity and context dependency of ageing and later life. The journal accepts country- or cultural-specific studies that do not necessarily include international comparisons as long as such contributions are interesting and understandable for an international audience.

IJAL publishes articles based on original research and includes a book review section, which ensures that readers are kept in touch with new work and current debate. To assure high scholarly standard IJAL uses a double blind review process. In order to stimulate exchange of ideas on ageing across many parts of the world, IJAL does not charge authors for their submissions and is available free of charge to anyone with Internet access (www.ep.liu.se/ej/ijal).
