## Submissions to the Journal

Manuscripts should be submitted electronically to [ijal@isv.liu.se](mailto:ijal@isv.liu.se) as an attached file in Word or rtf format, with a covering email giving full contact details and position(s) held by the author(s). When there is more than one author, the contact author should be clearly specified in the covering email

Submission of a manuscript to the journal is taken to imply that the manuscript has not previously been published, and is not considered for publication elsewhere. The ownership of material published in IJAL remains with the author(s).

Manuscripts should generally contain between 4,000 and 10,000 words, including references and footnotes, 1,000–3,000 words for reviews, comments and debates, and about 1,000 words for book reviews.

Authors are responsible for obtaining permission from copyright holders for reproducing any illustrations, tables, figures or lengthy quotations previously published elsewhere.

Only manuscripts written in proper English can be considered for publication. British or American English is accepted as long as consistency is observed. Bear in mind the multidisciplinary and international readership of the journal. Use a clear readable style, avoiding jargon. If technical terms or acronyms are included, define them when first used.

Manuscripts are anonymised by IJAL before they are sent out to review. All research articles that fit the aim and scope of IJAL undergo a double blind peer review process with (at least) two reviewers.

Manuscripts may either be accepted, accepted with minor revisions, invited to be revised and resubmitted or rejected.
